I want to hear the details of how you met Professor Hoshiko
Before that
It's unfortunate but,
We have finished with the evening meal, so as for the real issue...
Her Japanese is fluent As to be expected by Altei's elder sister (?)
The professor is a woman who loves solitude, so when she wants to be alone you can't ring her or send her an email
Is that so?!
I've communicated with all of the Professor's 3 phone computers, 33 laptop computers in total and 7 labs, but I haven't had a response
30 of them?!
Meca, Matomo, do you happen to know?
I'm also in the middle of searching for her
Toki ☆ Maids?!
The Professor uses the support guard for that That's the Toki ☆ Maid's job.
Your job is to keep the professor secure, isn't it?
That's not it!
We have very seriously searched for her as much as possible
Have you seriously looked for her?

Of course! The maids are always by the professor's side. To protect the professor. Even though the professor is temporarily lost, they know her whereabouts. But for some reason we can't contact the maids.
Even Hoshiko-chan has Waka-chan and Meca-chan's friends with her?!
Ah! Toki ☆ Mail!

And so while we're speaking openly, on top of not being able to talk to you we won't be coming home for a while.

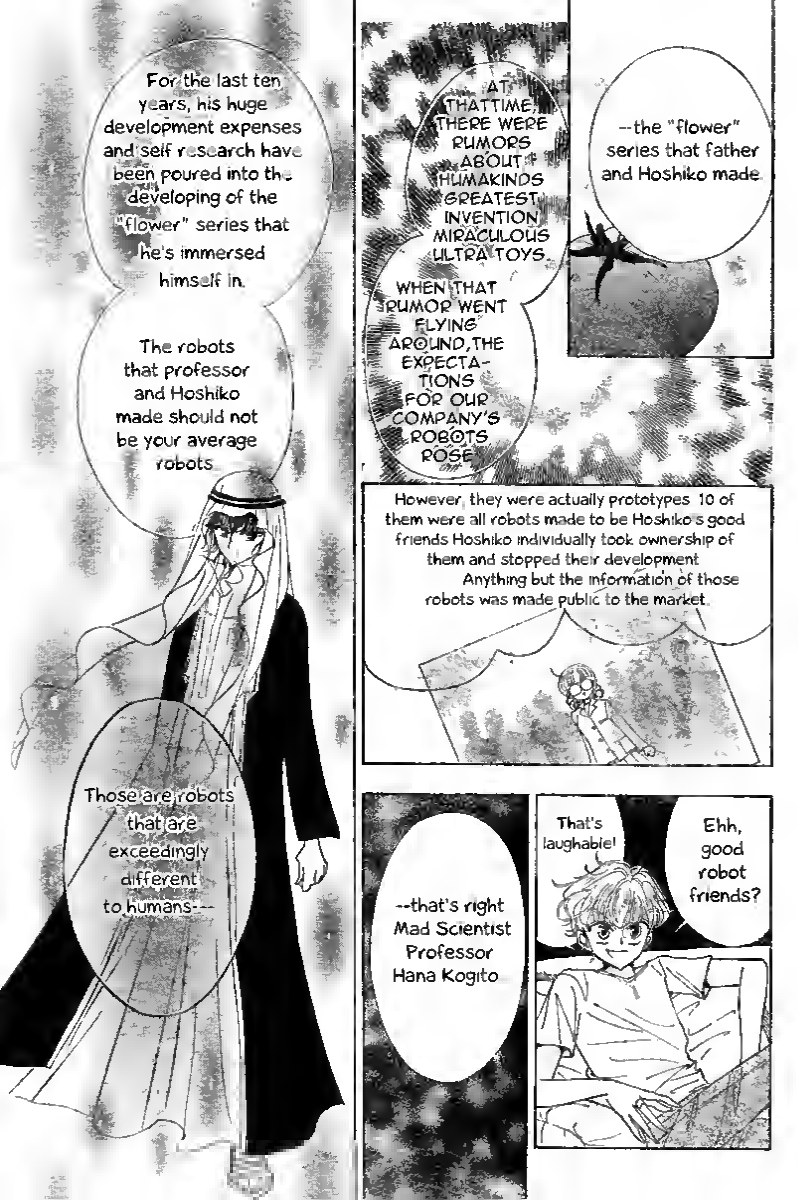
I received Monaka from Hoshiko.
The flower series!? Seriously?! Why are there 3 of them there?!
...given as a birthday present?!! What is Hoshiko thinking?!
The greatest invention of the century, RUR's Ultra Top Secret...
Speaking of which, she really leaked them to the outside?!!
I wasn't given to her! I'm just looking after her !!
Birthday present ?!!
Meca was given to Mimii as a birthday present-
The worst!! She is really the worst!!
She came. I thought I was going to die so that's why I ran away and came here.
She's come already ?!!
why Aunt Miki has come to target us?
Could it be that is the reason
-- and so you were mixed up in it? That's bad
That's why every time I rang you, you wouldn't pick up the phone and you even ignored my mails!

eldest daughter, Miho-sama Their mothers are 3 sisters!
No The Professor★s mama is Professor Kogito★s
Which means she's Professor Hoshiko's mama?
Hana Miki (38), Professor Kogito's second daughter and Mimil's Mama's older sister!
Aunt Miki, you say?
Tell me!
No way!
It has nothing to do with children!
Dangerous groups you say ?
Since she has become the board director, she's been recklessly gaining from only dangerous groups on her own.
3 sisters! Hah!
Her head's been strange for a long time!
Do you understand?! But there's no one that can stop her.
Mama
Tell me about the "flower" series



For the last ten years, his huge development expenses and self research have been poured into the developing of the "flower" series that he's immersed himself in.
The robots that professor and Hoshiko made should not be your average robots
Those are robots that are exceedingly different to humans---
AT THATTIME, THERE WERE RUMORS ABOUT HUMAKINDS GREATEST INVENTION MIRACULOUS ULTRA TOYS.
WHEN THAT RUMOR WENT FLYING AROUND, THE EXPECTATIONS FOR OUR COMPANY'S ROBOTS ROSE
--the "flower" series that father and Hoshiko made
However, they were actually prototypes 10 of them were all robots made to be Hoshiko's good friends Hoshiko individually took ownership of them and stopped their development
Anything but the information of those robots was made public to the market.
--that's right Mad Scientist Professor Hana Kogito
That's laughable!
Ehh, good robot friends?

It's a made up story! Where did you get that story from?!
Stop it. Even though that ridiculous story was in his will, They're nowhere to be found!
That is "The Flower of Mujuu"?
Father was old and could not really develop anything. Him being mad was a story from long ago!
Something like being close to humans is extravagant thinking! Humankind's legacy? How?!
And that Aunty was leaking out about the 'flower' to the outside world so strong measures were taken against her.
So basically, when the conveyance of the 11th one was drawing near, Hoshiko went into hiding
given to someone like me...?
--why was that unbelievable robot
On top of that, after the Professor's death, in the area of his investigation and his works
there were his last robots, they were also called humankind's
ultimate legacy. It became evident that his final plans were to make 11 "flowers"--

there was an 11th one.
A place that crosses over human intellect and so,
The place where people's desires end up is...
to protect her precious cousin
It was decided that it was in order
her life is in danger! Doesn't anyone know her whereabouts? Everyone's in a frenzy to find her!
You understand, don't you?! If Hoshiko isn't secure...
Agreed
Aunt ?!
That's right. So you go find Hoshiko as well. It's for the sake of mankind's future!

I've already had enough grief parting with relatives ...
Because they are my cute little sister and little brother in law.
Be calm. I'll be a kind opponent.
I'll give you a limit of 48 hours.
Papa, mama !!

Currently it's 19:59. I'll contact you at the same time in two days.
Do you understand that owning them is beyond your capabilities?
Because she wants to own the "flowers"
Why did it come to this?
Papa, mama!

Let go of me. You won't be able to get the qualifications for all eternity!
How much triangles and squares? Tell the truth. Is it for the money?!**
This isn't the time to be fighting.
I have the qualifications. It was because Hoshiko approved of me that she gave me Monaka
That goes for you too!

Is that so ?!
Shimoda It's the land with the memories of Mimii's and Professor's important promise

About Muuju,
It was said by one of the Buddhist Seiju that Buddha's mother gave birth under the Muuju tree. It's said that it will give you safe birth.
And the seemingly cute red flowers are called Muuge.
Muuge ...
I don't know more than that. It was the first time I heard someone talk about an 11th one.

So are you
Mimii, you're early!
Africa cannot cope with the civil war and disaster.
It might look peaceful but
It's somehow wonderful
Altei, your younger brothers, your younger sisters and Monaka are the ideal family

All of this children,
they are children whose parents have died due to terrorists and disasters
My father also died in the civil war and
I parted with my mother due to her disease
People die too quickly.
People that are necessary to me, that is...

Instead of people they became shields and they become spears.

The strong beings that will protect my family...

HAND MECA AND MATOMO OVER TO ME!
If it's me, I would ideally use their abilities
to protect them with love, a family's love
If you say yes, you and your family and friends,
I swear to protect their lives until this circumstances end
So you were playing innocent.
Out of the way, sexual harassing rascal.

If the danger increases,
The demerits against Miki-sama will only increase. Her understanding of that should be sufficient.
But, but you know...
